

Roseville
COLLEGE

HSC Outcomes

2022

From the Principal

Ms Deb Magill

Congratulations to our Year 12 Class of 2022 on their achievements demonstrated in the Higher School Certificate results released today. Their results are strong. They have achieved the highest number of top band results in the College's history, demonstrating what we know of this cohort - they are impressive.

Roseville College's results are consistently strong. As a non-selective school, we are proud to be ranked 30th out of over 650 schools in the Sydney Morning Herald's HSC school ranking this year (up 13 places from 2021). And while it is never a measure we rely on, it is pleasing to see the girls' efforts rewarded. We are a school that encourages our students to embrace rigour and challenge, and their achievements reflect this. In fact, over 60% of students achieved an ATAR of 90 or more and 30% above 95.

Today is a day of celebration, for excellent academic achievement for our girls, and in acknowledgement of the skill and dedication of our teachers. Even more importantly, it is a celebration of the demonstrated commitment and character each one of our students has shown during their time at Roseville College.

Congratulations especially to Rachel Park for her First in Course in Korean and Literature and All Rounders Zoe Balanco, Clara Cho, Anna Dong and Sophie Grant. We also acknowledge Top Achievers Sophie Grant who achieved 10th place in Society and Culture and Sophie Viol who came 16th in Modern History.

At Roseville College, a high ATAR is never the full story. Scattered across these results we acknowledge the gentle, personal victories for many, the immense dedication for most, and the overcoming of significant challenges for some. We congratulate each one.

Instead of focusing on what they missed, Year 12 2022 focused on what matters to us: in seeking truth, in learning and integrity, in love; in their genuine compassion and care for each other and their Roseville sisters big and small, and in hope. These girls graduate full of hope with a world of opportunity at their feet.

To the Class of 2022, you have been gifted with a good education. You are ready and equipped to make a difference. Use what you know, and who you are, to change the World for good. You are ready.

A final blessing:

'Awaken your spirit to adventure

Hold nothing back

Learn to find ease in risk

Soon you will be home in a new rhythm,

For your soul senses that the world awaits you. '

John O'Donohue

From the Students

Georgia Tinyow

College Captain

Congratulations Class of 2022, these results truly mark the end of a significant time in our lives. I'm so proud of the impressive statistics on these pages; however, I am more proud of the authentic women we have become behind the numbers.

Although I'm uncertain about my exact 'destination', I hope to pursue Medical Science at the University of Sydney next year. I intend to keep my options open for opportunities that may arise over the next few years.

Growing alongside all of you has been an absolute privilege. We are strong women who can find laughter in every situation, who lift one another up, and who can make a phenomenal difference in the world. As we depart from what feels like a second home, I hope we never forget that spirit-filled and ambitious Year 7 inside all of us, and that we continue to live our Rosie girl attributes and values that we all love.

Clara Cho

College Dux and HSC Dux

I think Class of 2022 and every other prior Year 12 student would agree the HSC was stressful: the late nights studying, the frustration of slow improvement, and the difficulty of keeping motivated. But we all agree, after finishing, that it was just another set of tests which we were well prepared for. We learnt that success is about balance; giving it all in our academics but with some fun; exercising, getting lunch with friends, parties and more.

I am hoping to do a Bachelor of Commerce and Advanced Studies or Science at the University of Sydney. I hope these courses will allow me to explore the world of business and management whilst pursuing my passion in science. I hope to pursue a career where I work with other people, in a leadership role where I can explore how my passions and talents can make a difference to other people's lives.
